Smart Glasses & Circularity

Smart Glasses
partners in building
the metaverse

And we bring
physical and digital
worlds together

How to enable this journey

Human Interfaces R-EVOLUTION

Eye tracking

Super audio

Lens display/
Lamination

Eyes on Circularity

Eco-Design

Injected frames and lenses made with bio-nylon
Castor Oil

Bio-acetate frames
Cotton or wood pulp
Renewable source used for cellulose acetate
Grains, beet or sugar cane
Renewable sources used for bio-based plasticizer

Semi finish lenses designed saving 50% of raw material

Sustainable certifications

Nylon recycling area developed in Italy with 100+ kg recycling/day

(ISCC+Certified)

Partnership

Acetate recycling CRT with Mazzucchelli

Fossil carbon substituted by recycled plastics

Nylon recycling from fishing nets with Bureo on Costa del Mar

Vertical integration

Focus on packaging and POP

Avoid single use **plastic**

Reduce materials and components

Use **recycled & recyclable materials** (fibers, paper...)

A pair of black Ray-Ban sunglasses with dark lenses is positioned diagonally across the frame. The background is a dark, textured surface, possibly leather or a similar material, with a subtle grid-like pattern. The lighting is soft, highlighting the contours of the glasses and the texture of the background. The text "Vision care champion" is overlaid in a light yellow, sans-serif font, centered horizontally and partially overlapping the sunglasses.
