

# Eyes on the Planet

## Eyes on Carbon

Climate Change - Working towards carbon neutrality of direct activities (Scopes 1 & 2 emissions) worldwide by 2025, already achieved in Europe in 2023 by improving energy efficiency across facilities, increasing the self-production and use of renewable energy and ultimately supporting the protection and restoration of natural ecosystems. In 2023, official commitment to setting near-term emissions reduction targets according to the Science-Based Targets initiative (SBTi), as a step forward in the Group's efforts to address climate change.

## Eyes on Circularity

Sustainable product and offering - Circularity approach addressing the value chain, leveraging the Group sustainable innovation expertise across its materials, processes, products and services. The goal is to embed an eco-design approach in all our product developments by 2025.

## Eyes on World Sight

Social impact - From the OneSight EssilorLuxottica Foundation's achievements on its four strategic priorities (crating permanent access, innovating for affordable solutions, funding subsidized and free services, and raising awareness) to harnessing corporate philanthropy to promote accessibility to art through the Eyes on Art project.

## Eyes on Inclusion

People well-being - The Company's employees are the leading players and contributors to EssilorLuxottica's sustainable development and value creation efforts. Development of a collective culture that fosters learning, nurtures diversity and prioritizes safety along with a working environment that offers equal opportunities based on merit, fairness and without discrimination. This strong culture of health, safety and well-being in the workplace is extended to families and communities under the OneWelfare program.

## Eyes on Ethics

Fair and ethical practices within the value chain - EssilorLuxottica's vertically-integrated business model is the key to delivering and ensuring a fair and ethical business approach wherever it has a presence. The Group's ethical principles are stated in its Code of Ethics and in the Business Partners' Code of Conduct and are at the basis of the Group's efforts on responsible sourcing, human rights and business ethics.

# 2023 Key accomplishments and facts

Carbon neutral in  
our direct  
operations in  
Europe

63%  
valorized  
waste

>2.7 million  
Leonardo education  
hours

4,900 optical  
points created in  
rural communities

# Eyes on Carbon

On track to be carbon neutral in Scopes 1 & 2 by 2025 and SBTi committed

Renewable  
Energy

Low-carbon supply  
chain

New buildings  
designed to be  
sustainable

Commitment to SBTi

# Eyes on Carbon

## Commitments

Carbon neutrality target for direct operations worldwide by 2025.

Setting near-term emissions reduction targets according to the Science-Based Targets initiative (SBTi).

## Key work streams

Carbon neutrality

Climate resilience

Natural capital

## Progress – Key highlights

- Achieved carbon neutrality for Scopes 1 & 2 emissions in Europe in 2023, with goal achieved in France and Italy in 2021.
- SBTi commitment as natural evolution of climate efforts.
- >60% increase in self-produced renewable energy for a total of approx.14GWh in 2023.
- Twelve-year Power Purchase Agreement (PPA) for wind energy supply (approx. 900 GWh) between 2023 and 2034.
- Low-carbon logistics projects: e.g., modal shift, nearshoring / reshoring of supply chain.
- New Building Guidelines including criteria for Gold level LEED certification for new manufacturing and distribution buildings (applied to new buildings in France, Thailand and Mexico).
- Major forest restoration project of 30 hectares beside the Agordo plant (Italy) and investments in natural ecosystem projects.

# Eyes on Circularity

# Eyes on Circularity

## Commitments

Shift from fossil-based materials to biobased and/or recycled materials and embed eco-design in all product developments by 2025.

## Key work streams

Circular Sources

Circular Products

Circular Services

## Progress – Key highlights

- 63% waste valorization rate (versus 58% in 2022).
- >90t of recycled nylon in Italy, China and Brazil (first eyewear company to obtain ISCC certification for the Circular Economy).
- >90% growth versus previous year of sourced quantity of biobased nylon up to around 31% of sourced nylon.
- Introduction of bio-circular polycarbonate for Plano lenses.
- Acceleration of roll out of Slim Fit project, allowing to avoid more than 1,250t of waste in 2023.
- -19% plastic consumption for the new Varilux XR series lens.
- In-store sustainability and circular services: WELL certification for 400 stores in three years, Ray-Ban Repair & Renewal Station, the Collect & Reuse initiative in Salmoiraghi&Viganò.

# Eyes on World Sight

Our responsibility toward vision and society

Vision on the road
