Business Partners Code of Conduct

2023

Introduction

AN ETHICAL AND RESPONSIBLE APPROACH

EssilorLuxottica's Mission to help people around the world "see more and be more" drives its strategy and everything it does. With its offering, scale and global reach, the Group has a responsibility to lead by example.

As such, we believe that managing our supply chain responsibly entails a collaborative relationship with our Business Partners. This is particularly important as we encourage them to implement the same industry leading ethical, human, social and environmental standards that we apply in our own business activities.

The Company places particular importance on respect for human rights and the environment, along with the applicable laws and regulations (e.g. the United Kingdom "Modern Slavery Act" and the French "Duty of Care" law) and international standards such as the United Nations Guiding Principles for Business and Human Rights and the OECD Guidelines for Multinational Enterprises.

EssilorLuxottica is committed to respecting and promoting human rights across its entire value chain. The Company abides by the International Labor Organization (ILO) Conventions and the ten principles of the United Nations Global Compact relating to human rights, labor law, the environment and the fight against corruption.

For us, an ethical and responsible approach is an absolute priority and a guiding principle across our operations and entire supply chain.

We expect all of EssilorLuxottica's business partners including suppliers, distributors, franchisees, consultants, agencies, service providers, outsourcing partners, hiring agencies, licensing partners, landlords (all of whom are herein referred to as "Business Partners") to share and respect our ethical standards.

We also expect our suppliers and subcontractors, to the extent possible, to ensure the application of this Code of Conduct or similar ethical standards to their own suppliers and subcontractors, and to take reasonable steps to cascade this Code of Conduct or similar principles to them.

In this document, "EssilorLuxottica" or the "Group" refers to all the entities belonging to the Group, including EssilorLuxottica S.A. and each of its direct and indirect subsidiaries.

This Code of Conduct embeds some of the principles supported by our Group-wide sustainability program "Eyes on the Planet" and its five strategic pillars: Eyes on Carbon, Eyes on Circularity, Eyes on World Sight, Eyes on Inclusion and Eyes on Ethics.

- Comply with its provisions (or the provisions of their own code of conduct or similar document).
- Take reasonable steps to ensure that its suppliers and subcontractors comply with its provisions.

- Provide EssilorLuxottica with all relevant information regarding the implementation of this Code of Conduct and potential impacts in relation to ethical, human, social and environmental standards that may affect them.
- Accept to be evaluated or audited on these principles by us or by a duly authorized third party.

We also expect them to comply with this Code, provided that when national legislation or other applicable regulations address the same issue as this Business Partners Code of Conduct, the highest standards or most restrictive provisions shall apply.

PROTECTING HUMAN RIGHTS

EssilorLuxottica is committed to **respecting and promoting human rights** in all its businesses across its operations and supply chain.

We expect from our business partners that they commit to respect the human and labor rights of their workers and seek to comply with all applicable human rights and labor-related laws and conventions such as the International Bill of Human Rights and the principles on fundamental rights set out in the Declaration on Fundamental Principles and Rights at Work of the International Labor Organization (“ILO”). The principles below apply to our Business Partners across their supply chain.

1.1 Prohibition of forced labor

EssilorLuxottica is committed to combatting **any form of slavery or human trafficking**. We have zero tolerance for forced labor, including unlawful child labor, in our own operations and in our supply chain.

Our Business Partners must **prevent and seek to eliminate** any form of forced or compulsory labor, including child labor, in employment, as defined by ILO instruments, and to require the same from their own contractors and subcontractors.

Our Business Partners must safeguard and prevent infringement of **domestic and migrant workers'** fundamental rights and provide them with fair and decent working conditions. It implies notably not to charge domestic or migrant workers with employment fees, not to abusively retain their identification documents, to provide them with clear and understandable contracts and to grant them freedom to leave employment, subject to reasonable contractual conditions.

Any form of **illegal or undeclared labor** is also strictly prohibited. Business Partners must employ domestic and migrant workers in accordance with applicable labor and immigration laws, including when they are hired or employed through third party agencies.

1.2 Prohibition of child labor

Our Business Partners must not hire individuals (either employees or temporary staff) under the age of 16 or under the legal minimum age for employment in the applicable country or jurisdiction, whichever is higher. In addition, hiring individuals (either domestic or migrant workers, or temporary staff) below 18 years of age for positions involving hazardous work or overnight shift is also strictly prohibited. Business Partners must set up appropriate procedures for age verification.

When hiring trainees or apprentices, our Business Partners must comply with applicable regulations, ensuring that they are not subject to long hours interfering with their education and that their mission corresponds to their skills and qualifications and enables them to achieve the diplomas they are working to attain.

1.3 Fair working conditions - decent working hours

We expect our Business Partners to ensure **fair and decent working conditions** to workers. They must ensure compliance with the maximum number of working hours, overtime, and personal leave (including sick leave, annual leave, parental leave) defined in the applicable local laws and collective bargaining agreements, where applicable. Business Partners should prevent excessive overtime and ensure compliance with local applicable laws. Moreover, Business Partners must ensure that every worker is provided with a minimum of 24 consecutive hours (one day) of rest in a seven-day week. Principles regarding working time, overtime and rest periods should be clearly explained to workers during the recruitment process or upon their request, in a language they understand.

1.4 Fair and equitable wages

We expect our Business Partners to prohibit any practice contrary to labor regulations and in particular concerning remuneration and the right to a living wage.

The wages paid to employees must be **decent and comply with local laws**, including legal minimum standards where applicable and should work towards equal remuneration among genders. Workers should be adequately informed of their wages, provided with clear wage statements that they can read and be paid in full and on time, without unreasonable and unlawful deduction. They should be free to choose how they spend their wages. Contractual bonuses and allowances should be provided. Leave, including parental leave, should be paid, where and as legally required. Workers must be paid for overtime at such premium rate as is legally required or, in those countries where such laws do not exist, at least equal to their regular hourly payment rate.

Employees should also be provided with adequate **social benefits and social security**, in compliance with local laws. All relevant social security contributions should be paid, collected and submitted.

1.5 Protection of local communities

Business Partners should seek to prevent any harm toward local communities, notably by the preservation of cultural heritage and of environment and local biodiversity, by preventing forced evictions and displacement and helping indigenous people and affected communities to safeguard their environments and rights.

2

They must also take appropriate steps, in compliance and to the extent permitted by local laws, to prevent and discipline any form of discrimination or harassment, it being sexual, psychological or on the basis of race, religion, ethnicity, national origin, sex, age, health, disability, sexual orientation, gender identity, marital status, past or present military service, pregnancy, etc., it being one-off, repeated or systematic.

Worker dormitories provided by a Business Partner or any third party should be clean, safe, and provide a reasonable living space.
